OL has problems with my position, hence the task force referred to in para. 3. It is my belief that a "U.S. only" policy for procurement for CIA computers is fully consistent with our Delegation of Procurement Authority and that it would be fully supported by our oversight committee should the matter be brought to their attention.

The reference to three new CPU's may need clarification. The first is the one we are committed to acquire so we can release a 168 for CAMS II development and a 158 for 4C. The second is a replacement for the Amdahl V-8 which we have on an expiring 2 year lease. The third will come in at the very end of the year and first payments will not be due until FY 1983.
